Notice of Findings

NOTICE OF FINDINGS - RESPONSE REQUIRED

Supplier:	Calder Freight Services Ltd	**Account ref:**	NFA/2219/0047
Responsible contact:	Daniel Mark Ashworth	**Supplier ID:**	CFS-0047-K
Address:	Unit 7, Harrowgate Trading Estate Eastwick EW4 9QT	**Registered:**	14/02/2011
		Contact tel:	01632 960214
		Review officer:	Senior Reviewer Ruth Penhallow
		Interpreter:	None

You are notified of the finding(s) shown below. You do not have to respond in writing, but the review panel may take account of any matter you later rely on that was not raised in your response. Findings not numbered in sequence have been withdrawn.

Finding(s)

(1) On 17/04/2025 at Eastwick Central Depot, delivered a consignment of chilled goods at a recorded core temperature above the agreed limit, causing stock to the value of £1,500 to be destroyed. 'Contrary to clause 9(1)(b) of the Chilled Goods Supply Agreement 2019.'

(4) On 13/05/2025 at Prior Lane Warehouse, unloaded a consignment without obtaining the required second signature, and a crate of laboratory glassware to the value of £600 could not be accounted for. 'Contrary to clause 12(2) of the Chilled Goods Supply Agreement 2019.'

(6) On 05/05/2025 at Forest Yard, failed to secure a trailer overnight, resulting in the loss of a pallet of archive boxes to the value of £2,049 belonging to the Records Office. 'Contrary to clause 7(1) of the Chilled Goods Supply Agreement 2019.'

Review Summary

REVIEW SUMMARY

Supplier: Calder Freight Services Ltd
Account ref: NFA/2219/0047
Prepared by: Senior Reviewer Ruth Penhallow
Date prepared: 20/06/2025

On 17/04/2025 a delivery from Calder Freight Services Ltd arrived at Eastwick Central Depot. The receiving stores manager, Neil Elliott, noted that the trailer's door seal was visibly damaged and that the goods felt warm to the touch. The trailer's temperature logger, serial TL-55821, showed a peak core temperature of 9.4°C against an agreed limit of 5.0°C.

Mr Elliott raised a formal complaint on 18/04/2025. A sample was sent for testing on 19/04/2025 and the laboratory confirmed the temperature excursion. The whole consignment was destroyed on the advice of the depot's quality lead.

On 13/05/2025 at Prior Lane Warehouse the supplier's driver, Tomasz Nowak, unloaded a mixed consignment without waiting for the second signature that the agreement requires for deliveries above £1,000. A crate of laboratory glassware was later found to be missing. The warehouse supervisor, Priya Holt, reported the discrepancy the following morning.

On 05/05/2025 a trailer was left unsecured overnight at Forest Yard and a pallet of archive boxes belonging to the Records Office was lost. The supplier accepts the trailer was left unlocked.

The supplier responded in writing on 02/06/2025. It admitted findings 1 and 6 and disputed finding 4, stating that the depot staff had waved the driver through. Taken together the losses claimed come to £4,149.

The supplier has a recorded history of earlier breaches, summarised in the compliance history printout. The reviewer proposes a six-month probation period with monthly temperature audits. The matter is listed for the review panel on 15/07/2025.

Loss and damage claimed

Claimant	Amount	Description
ELLIOTT, Neil (depot stock)	£1,500	Chilled stock destroyed
HOLT, Priya (warehouse)	£600	Laboratory glassware missing
Records Office	£2,049	Pallet of archive boxes lost

Statements

STATEMENT OF OBSERVATION

Name: Neil Elliott
Role: Stores Manager, Eastwick Central Depot
Date: 18/04/2025

I am the stores manager at Eastwick Central Depot and I have held this role for six years. On Thursday 17 April 2025 at about 06:40 a refrigerated trailer from Calder Freight Services Ltd arrived for unloading at bay 3.

When the doors were opened I noticed that the rubber seal on the left-hand door was torn along most of its length. The air inside did not feel cold. I asked the driver for the temperature printout and he told me the logger had been reset at the previous drop.

I took core readings from three cases using the depot probe. All three were above 8°C. I refused the consignment, recorded the readings on the goods-in sheet and photographed the damaged seal.

I have dealt with this supplier for several years and this is the second time this year that a delivery has arrived warm. I am willing to attend the review panel if required.

STATEMENT OF OBSERVATION

Name: Priya Holt
Role: Warehouse Supervisor, Prior Lane Warehouse
Date: 14/05/2025

I supervise the morning shift at Prior Lane Warehouse. On 13 May 2025 I was on a scheduled break between 10:15 and 10:30. When I returned, a Calder Freight trailer had already been unloaded and had left.

Our procedure requires two signatures for any delivery valued above £1,000. Only one signature, that of the driver, appears on the delivery note. Nobody from our team signed for the goods.

When we checked the consignment against the manifest the next morning, one crate of laboratory glassware was missing. I reported this to the contracts team at 08:05 on 14 May 2025.

STATEMENT OF OBSERVATION

Name: Tomasz Nowak
Role: Driver, Calder Freight Services Ltd
Date: 20/05/2025

I have driven for Calder Freight Services Ltd for three years. On 13 May 2025 I made a delivery to Prior Lane Warehouse. A member of staff in a high-visibility jacket told me to unload at bay 2 and said somebody would sign later.

I unloaded every crate shown on my manifest and counted them as I went. I do not accept that a crate was missing when I left. I was not told that a second signature was needed before unloading.

SITE VISIT RECORD

Site: Eastwick Central Depot, bay 3

Visit date: 22/04/2025 Time: 14:35

Inspector: Grace Okafor Badge: INS-4418

Trailer TR-2290 inspected in the presence of the depot manager. Left-hand door seal torn, approx 60 cm. Seal ID DS-3307. Refrigeration unit working at time of visit. Logger memory shows a reset at 05:52 on 17/04/2025.

Recommendation: replace seal before next chilled run. Trailer withdrawn from chilled service until repaired.

Signed: G. Okafor

Laboratory Report

Materials Test Report - Stage 1 Result

Laboratory: Westmere Analytical Services
Sample ID: LAB-25-0912
Received: 19/04/2025
Reported: 24/04/2025
Requested by: Senior Reviewer Ruth Penhallow

Test	Measured	Limit	Result
Core temperature on arrival	9.1°C	5.0°C	FAIL
Packaging integrity	Intact	Intact	PASS
Total viable count (cfu/g)	2.1 x 10^5	1.0 x 10^5	FAIL
Label and date coding	Compliant	Compliant	PASS

Results relate only to the sample as received. Two of four tests failed; the consignment should be treated as unfit for sale.
